

**IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF MARYLAND**

IN RE: *
COURT OPERATIONS UNDER THE EXIGENT * MISC. NO. 00-308
CIRCUMSTANCES CREATED BY COVID-19 *

AMENDED STANDING ORDER 2021-07

On May 26, 2021, the Court modified Phase Three of its Recovery Plan to relax some of its pandemic mitigative safety measures to reflect dramatically improving virus metrics and vaccination rates, the lifting of state and local restrictions on businesses, and updated guidance from the Centers for Disease Control and Prevention. In recent weeks, local virus metrics have only continued to improve. The statewide 7-day test positivity rate is now at a record-low of 0.61%, and the 7-day test positivity rates for all local jurisdictions surrounding the courthouses in this District are well below 1%. Hospitalization rates and the daily average numbers of newly-reported cases have each reached lows not seen since the earliest days of the pandemic, and they continue to fall. While these metrics have declined, vaccination rates have increased, with over 73% of Marylanders over the age of 18 having received at least one dose of a vaccine. In response, the Governor of Maryland has announced the end of the COVID-19 state of emergency, effective July 1, 2021. Moreover, local jurisdictions have eliminated indoor mask mandates or will do so by July 1, 2021.

While the Court is not yet ready to announce progression into Phase Four of its Recovery Plan nor a return to its full pre-pandemic operating status, the improving local virus data, vaccination rates, and other relevant criteria warrant additional relaxation of pandemic mitigative safety measures. Accordingly, the Court determines that it should further amend its Phase Three restrictions to reflect these improving factors, effective July 1, 2021.
